Subject: Re: I did not get properly paid for the work I did on the design of LARES-2. - Correction and additional information

Dear David,

I believe there is a misunderstanding: neither Ciufolini nor Paolozzi work for ASI, therefore if they contracted you for a design work, it is entirely their responsibility. ASI is supporting the LAGEOS-2 as a Project, but does not enter into the management of subcontracts.

Please refer to Ciufolini and Paolozzi for your claims.

Best regards,
Piero Benvenuti
